OBJECTIVE

I am a fresher with knowledge of HTML, CSS, JavaScript, and Python, interested in software and web development roles. I have basic understanding of Django, DSA, and OOP concepts. I am eager to learn new technologies, improve my skills, and contribute effectively to the organization.

EDUCATION

B.E. in Computer Science and Design Engineering

PDA College of Engineering, Kalaburagi (*Autonomous, Affiliated to VTU*) 2021 – 2025 | **CGPA:** 8.03

PUC (Pre-University – Science)

Muktambika IND PU Science College for Girls, Sharan Nagar, Kalaburagi 2018 – 2020 | **Percentage:** 82%

SSLC (Class 10)

Sri Renuka Foundation School, Gulbarga Tq: Afzalpur, Dist: Kalaburagi 2018 | **Percentage:** 70.5%

PROJECTS

E-Canteen Management System

- Developed a web-based E-Canteen system to manage food orders and users
- Implemented order and inventory management to improve efficiency with Improved UI design.
- Built Responsive layout, Reduced order processing time by 40% and minimized food wastage.

Student Information System

- Developed a Student Information System to manage student data and records built Responsive webpage.
- Implemented CRUD operations for admissions, course registration, and academics
- Reduced manual errors and improved data accuracy using database management

Image Resolution Enhancement Using GAN

- Developed an **Image enhancement system using GANs** to improve image quality
 - Used **GFPGAN and ESRGAN** for face restoration and image upscaling with User-friendly interface.
 - **Integrated** deep learning models into a web application **for real-time**
-

INTERNSHIP AND TRAINING

Training: Python Full Stack Development with Data Analytics |**Q-Spiders, Bangalore**| Aug 2025-Feb 2026

Internship-Q-Spiders(Yantra Software Solutions) | Aug 2025-Nov 2025

- Technologies used- HTML CSS Bootstrap and Javascript
- Developed responsive frontend pages e-commerce website.
- Worked Under mentor Guidance Internship to meet project requirements.

Prodevans Technologies – Virtual Internship (2 Months)

Skill India – Virtual Internship (6 Months)

Completed virtual internship at Prodevans Technologies with training in Python, SQL, and Web Development Developed an E- Canteen Management System integrating frontend and backend and Gained hands-on experience in CRUD operations and application workflow design

NSDC – Cloud Application Developer (Rooman Technologies, IBM & Wadhvani Foundation) The program enhanced understanding of scalable applications, cloud services, and industry-standard development tools.

CERTIFICATIONS

- Front-end Development-Q-Spider (Test Yantra Software Solutions)
- Cloud Application developer (CAD)–Skill India
- JavaScript Certification– Certiport
- Introduction to C Programming
- Service Provider Internship (3-month)-Pro-LEAP PRODEVANS
- Life Skills-Certification–Wadhwani Foundations
- Introduction To Internet Of Things (Silver) and Innovation by Design–NPTEL

TECHNICALSKILLS

Programming Languages: Python

Databases: SQL

Web Technologies: HTML, CSS, JavaScript

Tools: GitHub, VS Code, Excel

LANGUAGEPROFICIENCY: English, Kannada, Hindi

SOFTSKILLS

Collaborative

Adaptable

Innovative

Articulate Person

ACHIEVEMENTS

- Research Paper: *“Image Resolution Enhancement Using GAN”* accepted for publication in IJRTI, 2025.
- Volunteer: Kalyana Karnataka Startup Conclave – Assisted in event organization and startup networking sessions.

DECLARATION

I am Bhagyashree Kulkarni, and I declare that all the above information is true to the best of my knowledge.

Place: Ghattarga, Kalaburagi

Current Place: Mudalapalya, Bangalore
